## Education System in the USA

The USA education system comprises of large number of institutes providing a diverse range of courses to select as per student's interest.

- Based on their source of funding, the education institutes can be divided into three categories: Public, Private and Public-Private.
- In USA, there are many independent accrediting bodies like ABET for Engineering, ACEN for Nursing, AACSB for business etc. that award rankings to the higher education institutes on regional as well as national level.
- Regardless of the institute type, students typically earn credits for courses they take and these credits count towards the completion of a program. Courses are often divided into "core" subject areas to provide the foundation of the degree program and "major" courses to provide specialization in a subject area. Students can also take "elective" courses to explore other topics of interest for a well-rounded educational experience.
