A SYNOPSIS TO PRE-DEPARTURE SEMINAR

The Globe International is proudly one of the pioneering organizations in the foreign education industry in India that conducts a **pre-departure** seminar for its Canada bound students who have secured their Canada student visa!

This event is conducted **every intake**. At times, this event is conducted even **twice or thrice every intake** to accommodate the **large volume** of proud **visa** holders. Our pre-departure event is conducted for the **students** across all **our branches in Gujarat** and is conducted **along with the parents** of the students. This event is an excellent platform for the students and parents to establish and grow their network and form the **college/region-wise groups** before the students leave for Canada. In the pre-departure event, the students and parents are addressed by our directors, **Dr. Pragnesh Kothari and Mrs. Monali Kothari** as well as our senior management team. Held in the premises of a hotel and followed by a grand lunch event, this event:

- ➔ Provides a detailed understanding to the students regarding the relevant documents to be carried along with them for the travel, immigration procedure, relevant forms to be filled in the transition and post-landing formalities to be completed by the students in their respective college/university and banks
- ➔ Offers an insight into the list of objects for shopping, the do's and don'ts while traveling & after landing, the importance of having travel insurance, airport pickup, accommodation services and options, the arrangement of foreign currency, etc.
- ➔ Briefs about the step-wise process for the college/university registration, time table selection, approach to academics in the college/university, clothing as per the Canadian climate, reaching out to emergency services, and availing the student services on campus such as career counseling, assistance on building cover letter and resume for CV
- ➔ Guides the students about the detailed understanding of the part-time and full-time employment opportunities in Canada, and the subsequent process of applying for the Permanent Residence.

As a serious student intending to study and settle in Canada, we genuinely recommend that you do not miss the opportunity to attend the pre-departure seminar.
